Photos	sew-MM-Ventura-MC-160	Müller Martini	Ventura MC 160	2016	32x42,5	Book Sewing Machine		Automatic Book Sewing Machine, Touch Screen Control, Müller Martini Commander Control, Servo Drives, ASIR III Automatic Signature Recognition and Control System, Max. 11 Stitches, Opening 2+2, Venturi Jets, Leaf Chain for Thin Signatures, Device for Thread Melting, Active Thread Cutting System, Active Thread Divider System, Patented Loop Formation Using Blown Air, Belt Delivery. The Ventura MC 160 is designed for high quality industrial book sewing with fast and convenient job changeovers. The touch screen with Müller Martini Job and Setup Wizard allows efficient machine setup and provides the operator with a clear overview of the complete production process. The patented sewing process uses punch needles to create the holes in the signatures, while sewing needles guide the thread through the signatures. An air blast forms the thread into a loop, which is picked up by the hook needle to create the thread chain. The active thread divider system ensures that the threads between individual book blocks are cut cleanly and without tension. Suitable for a wide range of signature formats from 120 to 425 mm in length and 75 to 320 mm in width, with signature thicknesses of up to 4 mm. Thanks to its quick job changeover and production speed of up to 9,600 signatures per hour, the machine is suitable for both short production runs and industrial multi shift operation. Max. Signature Size: 320 × 425 mm, Min. Signature Size: 75 × 120 mm, Max. Signature Thickness: 4 mm, Mechanical Speed: 18 to 160 Cycles/min., Max. Production Speed: 9,600 Signatures/h,	ASK

The Delivery Transports The Individually Pressed Sheets Through The Belt Section Without Marking. Subsequently, The Stacks Are Formed From The Top In Catch Baskets And Laid Out Alternately – In Two Stacking Levels Arranged One Above The Other. This Enables Effective Non-Stop Operation. The Simple Handling With Good Accessibility Also Facilitates The Processing Of Multiple-Ups. The Height-Adjustable Feed Table Ensures That The TSH Twinstacker Can Be Positioned Easily And Flexibly At The Various Preliminary Stations. Whether Laying Out Isolated Sheets Or Even In A Shingle Stream – The Twinstacker TSH Convinces In Every Respect With Its Performance. User-Friendly Stack Delivery, Mark-Free Laying Out Up To Two Uses, With User-Friendly Ergonomic Removal, Format: Max. 700x340mm, Min. 100x100mm, Product Thickness Max. 6mm, Stacking Height Per Level Max. 10cm, Optimal For One-Man Operation On Folding Machines With High Machine Speeds Of Up To 18,000 Cycles, MCT Control Panel	ASK
